

Fiscal Year 2007/2008 Budget Highlights and Goals

ASSESSMENTS

FY2007 Highlights

- County assessment roll was timely certified to County Clerk.
- The Coefficient of Dispersion, which measures the degree of assessment uniformity is 11.35
- Intra-county equalization of townships resulted in a state factor of 1.00 (no change).
- Successfully implemented Bulletin 810 Farmland values and guidelines
- Tested and partially implemented document management / integrated workflow technology.
- Completed base studies to determine new methodology for gravel and mineral assessments.
- Began implementation of new tax administration software, with conversion of data from former system.
Included testing of reports and programs. This process continues and will not be complete until one full tax cycle is completed.

FY2008 Goals

- Complete implementation of document management / integrated workflow technology for real estate complaint forms.
- Add additional documents for electronic workflow processing
- Timely completion in February 2008, of 2007 assessment process in spite of 10 -12 weeks lost due to software conversion issues
- Successful completion of a quadrennial revaluation with unfamiliar software and delayed ability to conduct preparatory tasks
- Complete revaluation of mineral properties county-wide
