Cardiovascular screening offered June 2

Woodstock IL – McHenry County Department of Health (MCDH) is offering a cardiovascular screening on Wednesday, June 2, from 8:30am-11:30am, at McHenry County Government Center, Administration Building (Conference Room A), 667 Ware Road, Woodstock. The screening requires a 12-hour fast and includes total cholesterol, HDL and LDL cholesterol, fasting blood glucose, triglycerides, blood pressure, cardiovascular education, heart age assessment and body mass analysis. Appointments are required. The cost is \$35.00.

Heart disease and stroke are the first and third leading causes of death, respectively, in Illinois – killing 5 people every hour, according to the Illinois Department of Public Health. Age, gender and family history are risk factors beyond our control. But what we can change is high cholesterol, high blood pressure, smoking, diabetes, obesity, lack of exercise and poor nutrition. The more risk factors a person has, the greater the chances of developing cardiovascular disease.

Call MCDH at 815-334-4536 to schedule your appointment.
