Do you live in a subdivision that has a Home Owners Association (HOA)? Odds are, your subdivision has infrastructure in place to handle stormwater runoff. This infrastructure requires maintenance to function properly. This maintenance is usually the responsibility of the HOA.

Attend this free workshop to learn more about maintenance techniques or practices for subdivision drainage systems. Additionally, learn more about local water quality concerns such as: Coal Tar Asphalt Sealants, Lawn Care, and Pavement Deicing.

### Topics to be covered include:

- Evolution of Stormwater Facilities
- Stormwater Management Ordinance
- Maintenance Responsibilities and Plans
- Covenants
- Legal Obligations
- Water Conservation
- Water Quality
- Natural Areas Maintenance
