Crystal Lake, Illinois

Melissa H. Adamson
Public Health Administrator

PLEASE NOTE: All septic system designs in McHenry County must be drawn by or under the direct supervision of a Registered Professional Engineer or Licensed Private Sewage Disposal Installation Contractor or a Licensed Environmental Health Practitioner.

The attached list is provided as a convenience in locating a septic system designer for residents in McHenry County. The McHenry County Department of Health does not certify the capabilities or recommend any of these designers on this list.

The Department does recommend that you do the following when selecting a designer for a private sewage disposal system:

1. Pick out several designers from the attached list to interview. Inquire as to the designer's experience in septic system design work. Ask to talk to some of the designer's most recent clients. Inquire of their clients as to their experience with the designer.
2. Discuss the fee for their service as well as the amount of time necessary to complete the job. Inquire as to any costs for revisions and the time necessary to complete those revisions. Ask as to any limitations on telephone contact or availability of the designer.
3. Talk to Private Sewage Disposal Installation Contractors who have used their designs.
4. Select the most qualified designer of those you have interviewed, who meets your own needs.

Professional Engineers and Environmental Health Practitioners are licensed by the Department of Professional Regulation at 320 W Washington, Third Floor, Springfield, IL 62786 – telephone 217-782-0458. Their web page can be found at www.dpr.state.il.us.

Private Sewage Disposal Installation Contractors are licensed by the Illinois Department of Public Health at 525 W Jefferson Street, Springfield, IL 62761 – telephone 217-782-5830. Their web page can be found at www.idph.state.il.us.
