PROGRAM OBJECTIVES

- Recognize the relationship between epilepsy, brain injury and mental health
- Understand the importance of a full neurological work up
- Recognize the need for therapy
- Understand the importance of case management

PRESENTER(S)

MARVIN ROSSI, MD., PHD. Is an Assistant Professor and Attending Physician at the Rush Epilepsy Center of Rush University Medical Center in Chicago. Dr. Rossi is Board Certified in epilepsy. Dr. Rossi is dedicated to seeking out and providing cutting edge treatments and care delivery models to his patients. Dr. Rossi has devoted the past 16 years to rural health care in McHenry County, most recently adding Telehealth as an option to treat patients within their own community. As a researcher, Dr. Rossi has a special interest in the development and implementation of new detection and control technologies that stabilize dysfunctional neural pathways. Dr. Rossi's professional memberships include; American Epilepsy Society (full member), American Academy of Neurology; President and Founder of SynaptiCOM; CEO of Epilepsy Health Management; American Medical Association; Illinois State Medical Society; Chicago Medical Society; IEEE Computer Society; New York Academy of Sciences; International Brain Research Organization (IBRO); and the Society for Neuroscience.

MARY LOU PHILBIN, MS, QMHP is Program Manager of brain injury services at Brain Injury Health Management in Crystal Lake, a division of the Epilepsy Foundation of North Central Illinois. She coordinates community based case management and employment support services for individuals with brain injuries and facilitates family and caregiver support groups in McHenry County. She has a master's degree in Rehabilitation Counseling and has worked in brain injury services for 23 years.

TARGET AUDIENCE: Physicians, Case Managers, Social Workers, Therapists, Care Givers, Patients, School Personnel, Athletic Coaches, Rehab staff, Mental Health Providers
