### PROGRAM OVERVIEW

This workshop will focus on providing mental health clinicians and supervisors with information they need to provide clinical services and support to adults, children and adolescents who have been exposed to domestic violence.

At the end of the presentation the participant will have gained the following knowledge:

- Provide appropriate services to adults, children and teens who have been exposed to domestic violence
- Understand the dynamics of abusive relationships
- Recognize myths and realities related to domestic violence
- Assess for danger and risk of lethality, and safety plan with clients
- Provide trauma-informed treatment for victims of domestic violence
- Understand unique aspects of treatment for adults and children who have experienced domestic violence
- Recognize the effects of domestic violence on children
- Understand how domestic violence affects parenting and provide skills for parents who have lived with abuse
- Know mandated reporting requirements for domestic violence situations
- Know when to refer to a domestic violence agency
- Develop multicultural competency related to domestic violence
