

Now Hiring!

Position: Laboratory Calibration Technician

Employment Type: Full Time Position

Rate: \$10-\$15 (Based on Experience)

Start Date: Immediately

American Calibration, Inc. is looking to hire a dimensional calibration technician for our laboratory in Crystal Lake, IL. This is a full time position Monday - Friday from 8:00am to 4:30pm. This job will expose you to a rapidly growing industry, enabling you to build transferrable and valuable skills. We are looking for an individual with enough patience to work through complex, yet repetitive, tasks, but we are more than willing to train the right candidate.

Job Description:

- Perform calibrations for customer and in-house gages
- Perform calibrations according to our Standard Operating Procedures (SOP's) or per the customer's directive
- Evaluate customer gages for repair and repair in house, if capable
- Process service orders and generate calibration certificates

Position Requirements:

- High School Diploma
- Positive attitude
- Detail oriented
- Quick learner
- Effective time management/prioritization
- Computer and basic math skills
- Must pass a pre-employment drug test

Benefits:

- Simple Plan IRA (eligible after 90 days of employment)
- Medical, Dental, & Vision Insurance (eligible after 90 days of employment)
- Vacation days and sick time (eligible after one year of employment)
- Paid holidays (eligible after 30 days of employment)

All interested applicants please submit your resume to accounting@americancalibration.com.

. If you have any questions, please contact our office directly at 815-356-5839 and ask for Amanda Irizarry or email us at accounting@americancalibration.com.
