

WRAP AUGUST 14, 2019 MEETING
SPEAKER BIOGRAPHIES AND PRESENTATION SUMMARIES

**Gary R. Clark, P.E. Director (retired), Illinois Department of Natural Resources,
Office of Water Resources**

Gary Clark started his career as a civil engineer with the State of Illinois Department of Natural Resources, Office of Water Resources in 1974. On July 1, 2003, Mr. Clark was appointed as the Director of the Office of Water Resources and he retired from this position in December of 2010. He was then employed through 2017 as a Water Supply Planning and Management Technical Advisor with the Illinois State Water Survey. During his career with the Office of Water Resources, Mr. Clark has served as the Chief of the Planning and Research Section and as manager of the Division of Program Development. During his career, his areas of professional responsibilities included the administration and conduct of research and planning in the areas of instream flow protection, statewide water supply management, groundwater modeling, drought management, groundwater and surface water law and state water planning. Mr. Clark is a graduate of the University of Wisconsin, with a B.S. Civil Engineering in 1972, and a M.S. in Civil and Environmental Engineering in 1974. He is a licensed Professional Engineer in the State of Illinois.

- Presentation: Gary's presentation will focus on water use laws in Illinois and who regulates the States waters.

Karen Katamay, Environmental Protection Engr. III, IEPA Bureau of Water

Karen Katamay is a Senior Environmental Protection Engineer for the Illinois EPA with over 22 years of experience. Karen conducts a variety of inspections, including wastewater treatment plants, industrial discharges, industrial stormwater, construction site stormwater, and MS4 audits. Karen is also a Certified Professional in Erosion and Sediment Control (CPESC).

- Presentation: Karen will discuss permit compliance for the National Pollution Discharge Elimination System (NPDES) and the Municipal Separate Storm Sewer System (MS4)

**Joanna Colletti P.E., CFM, Water Resources Manager,
McHenry County Planning & Development**

Joanna Colletti, is the County Water Resources Manager and Chief Stormwater Engineer where she administers and enforces the countywide Stormwater Management Ordinance. She serves as the Enforcement Officer for the unincorporated areas of McHenry County and eight communities. Joanna has over 20 years of private and public experience as a Civil Engineer. She has been involved in a wide variety of projects including floodplain and stormwater management, engineering site design, construction monitoring, hydrologic and hydraulic analyses of riverine and urban drainage systems, wetland delineations, regulatory permitting and enforcement, and the county's Community Rating System. Joanna holds a Bachelor of Science in Civil Engineering from Bradley University. She is a registered Professional Engineer in the State of Illinois and is a Certified Floodplain Manager.

- Presentation: Joanna will discuss the McHenry County Stormwater Ordinance, how it is implemented, and what may be in store in the future.
