Job Title: Quality Control Lab Technicians – 2 positions available!

Job Description:
Test and inspect raw materials and products at various stages of production to ensure that required specifications are met.

- Performs tests and makes adjustments to in-process paint batches to assure full compliance with all established specifications.
- Performs inspections on all incoming raw materials to assure that the raw materials meet all manufacturer's / TVM specifications prior to use in the factory.
- Identifies and assists in the resolution of all problems related to formulas, manufacturing and equipment, raw materials and packaging.
- Creates and maintains records of all quality control and quality assurance files on a daily basis.
- Performs quality checks on released batches at specified intervals to monitor performance over a two year period.
- Assists in the benchmarking of all batches produced by recording and examining data related to the batches.
