

Out of School Young Adult RFP

Questions

1. What is the average amount of funding available -what is the average size of contract awards?
 - *We are considering funding Young Adult programs spending up to \$125,000 for the Program Year beginning 01 July 2020. The amount of award is varies on program and services being delivered and we consider the cost per Young Adult Participant in the proposal.*

2. Can you please advise your target cost per participant?
 - *We do not have a target cost participant. Costs have to be realistic and in-line with services provided.*

3. I came across that the assembly of proposals stated on page 9 includes a section F- on Past Demonstrated Effectiveness, however, on page 10 it goes straight from E to G with no explanation on what F should include. Please advise if you can.
 - *We are looking for your success with the program and the population(s) to be served. You may explain how the program has been effective if applicable using a blank sheet.*
